ORDER NO.

SUBJECT:

DOCKET NO. 2021-76-E - Application of Duke Energy Carolinas, LLC for Approval of Demand-Side Management and Energy Efficiency Rider 13, Decreasing Residential Rates and Increasing Non-Residential Rates - Staff Presents for Commission Consideration Final Disposition of Duke Energy Carolinas, LLC's Application for Approval of Demand-Side Management and Energy Efficiency Rider 13, Decreasing Residential Rates and Increasing Non-Residential Rates.

COMMISSION ACTION:

Based on the information presented in Duke Energy Carolina, LLC's application, the ORS Report, and the Company's response to the ORS Report, I move that the Commission approve Rider 13 to the Company's demand side management and energy efficiency programs for the calendar year 2022 as filed by the Company. This rider will result in an approximate rate decrease of \$1.11 per month for the average residential customer using 1,000 kilowatt-hours per month. The new non-residential rate with Rider 13 is higher than with Rider 12, however, due to the non-residential opt-out provision, the non-residential rider will apply only to those non-residential customers that have elected to participate in the Vintage Year 2022 programs. I also move that the Company continue to monitor and seek program enhancements designed to improve the cost-effectiveness of the non-residential EnergyWise for Business and the non-residential Information Technology Energy Efficient programs.

With regard to concerns expressed by the Intervenor, I further move that the parties continue discussion of these matters in the Collaborative.

I so move.
